

# Zero-Emission Vehicle (ZEV) Fleet Cost Differential Rebate Application Form

---

## Introduction

Agencies seeking to apply for the Zero-Emission Vehicle (ZEV) Fleet Cost Differential Rebate Program must work with the Office of Budget Management (OMB) and complete all standard requests, forms, and processes typically required for fleet vehicle purchases.

Once a vehicle order has been placed, the applying agency must submit this ZEV Fleet Cost Differential Rebate Application Form to the Office of Energy Resources (OER). This form collects information related to the agency, primary point of contact, vehicle details, and the rebate amount requested. All requested information must be provided for an application to be considered eligible.

Upon placement of the vehicle order and submission of required receipts and supporting documentation, OER will reimburse the purchasing agency for the eligible cost differential rebate amount. Please note that this is a **reimbursement-based** rebate program; funds will not be disbursed prior to vehicle purchase.

## Eligible Vehicles

Below is an example list of vehicles that qualify for this program, with estimated rebate amounts shown. Actual rebate amounts may vary based on purchase price, market conditions, or other factors.

For vehicles not listed in the example table, rebate amounts will cover 100% of the eligible cost differential, up to the cap amount for the applicable vehicle classification and type.

Low-Speed Vehicles (LSVs) are also eligible for this program. LSVs must be all-electric, have a maximum speed of 35 mph, and include vehicles such as golf carts.

Agencies are encouraged to evaluate their operational needs to determine which electric vehicle(s) best meet their needs. While agencies are strongly encouraged to consider battery electric vehicles (BEVs), plug-in hybrid electric vehicles (PHEVs) are also eligible for reimbursement under this rebate program.

| Make       | Model           | Classification | Type | Estimated Rebate Amount   |
|------------|-----------------|----------------|------|---------------------------|
| Chrysler   | Pacifica        | Minivan        | PHEV | \$6,000.00 - \$7,000.00   |
| Dodge      | Hornet          | SUV            | PHEV | \$11,000.00 - \$12,000.00 |
| Ford       | F-150 Lightning | Truck          | BEV  | \$13,000.00 - \$14,000.00 |
| Hyundai    | Ioniq 5         | SUV            | BEV  | \$4,000.00 - \$5,000.00   |
| Hyundai    | Tucson          | SUV            | PHEV | \$9,000.00 - \$10,000.00  |
| Jeep       | Grand Cherokee  | SUV            | PHEV | \$15,000.00 - \$16,000.00 |
| Jeep       | Wrangler        | SUV            | PHEV | \$13,000.00 - \$14,000.00 |
| Mitsubishi | Outlander       | SUV            | PHEV | \$8,000.00 - \$9,000.00   |
| Subaru     | Crosstrek       | SUV            | PHEV | \$9,000.00 - \$10,000.00  |
| Toyota     | Prius           | Sedan          | PHEV | \$2,000.00 - \$3,000.00   |
| Toyota     | Rav4 Prime      | SUV            | PHEV | \$13,000.00 - \$14,000.00 |
| Golf       | Cart            | LSV            | BEV  | \$2,000.00 - \$3,000.00   |

*Table 1: Example List of Qualifying Vehicles.*

The OER will cover the difference in cost up to the cap amount for the classification and type of vehicle listed in the table below.

| Vehicle Type | Vehicle Classification | Rebate Amount |
|--------------|------------------------|---------------|
| BEV          | SUV                    | \$ 6,000.00   |
|              | Truck                  | \$ 14,000.00  |
|              | LSV                    | \$ 3,000.00   |
| PHEV         | Sedan                  | \$ 9,000.00   |
|              | SUV                    | \$ 16,000.00  |
|              | Minivan                | \$ 8,000.00   |
